KONICA MINOLTA

INTELLIGENT DOCUMENT AUTOMATION

FOR HEALTHCARE

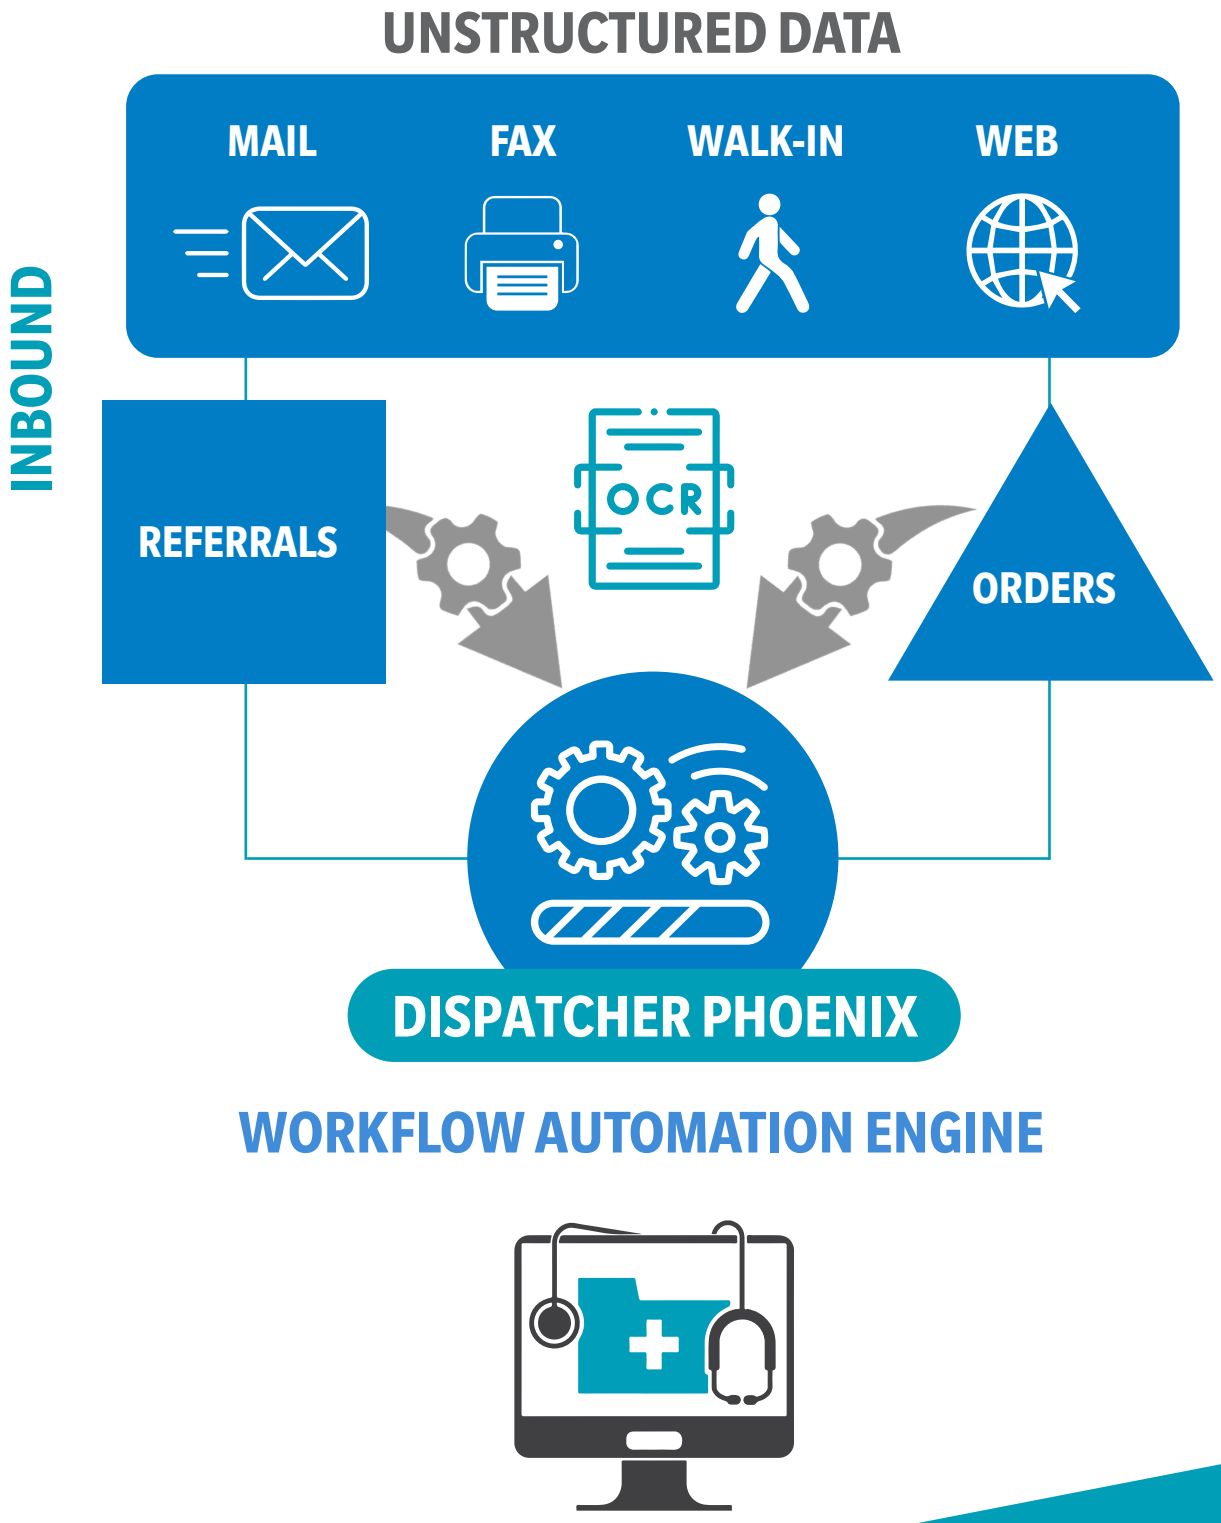

Automate Manual, Paper-based Processes

Konica Minolta Dispatcher Phoenix streamlines slow and manual processes in healthcare to enable fast and more efficient patient care. With workflow automation powered by Dispatcher Phoenix, you can capture unstructured data across multiple workflows to improve care delivery and reduce the time spent on administrative tasks.

Giving Shape to Ideas

IMPROVE WORKFLOW EFFICIENCY AND OFFSET STAFFING CHALLENGES

Manual workflows cause errors, increase costs, and lead to missed referrals. **Dispatcher Phoenix** automates repetitive tasks, like processing records, freeing up time to focus on **delivering better patient care.**

AUTOMATE AND ACCELERATE SLOW, MANUAL WORKFLOWS

Dispatcher Phoenix is designed to **streamline slow, outdated processes** so you can **cut down on administrative and labor costs.**

SIMPLIFY PATIENT INTAKE

1

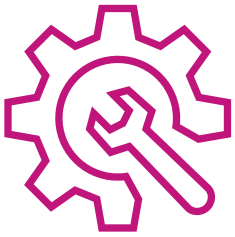

- Systematically capture inbound faxes, e.g. referrals, orders, and similar documentation
- Apply Intelligent Document Processing (IDP) technologies to recognize document formats, transform extracted information to structured data, and forward for further processing
- Reduce document management time and costs while speeding up referral processing
- Transform legacy tasks, reduce reliance on paper, and allocate resources on patient care and revenue generating activities

AUTOMATE YOUR WORKFLOW

2

- Receive documents from multiple sources with ease
- Convert files of any format into searchable PDFs
- Redact sensitive information permanently to ensure HIPAA compliance
- Send patient files securely to other healthcare systems

FOCUS ON IMPROVING CARE, NOT DEALING WITH DATA

Buy back productive time for care managers and physicians with a comprehensive platform that **harmonizes disconnected systems** and adapts to future needs.

Minimize Time Collecting Data

Reduce burnout from administrative tasks by automating manual, paper-based processes.

Streamline Inbound Referral/Order Process

Never miss another referral through human error, track unresolved orders, and reduce costly process delays.

Harmonize Disparate Systems

Automate data capture and verification to accurately reconcile patient information across systems and EHR fields.
